## WE EQUIP YOUR MISSION

Rampart is a leading single source provider of **operational equipment**. We offer rapid, smooth acquisition of operational equipment with industry leading customer service.

### EQUIPMENT SOLUTIONS

Our experts are committed to serving the end-user with the world's best products.

If you're unsure of what you need, our experts work with you to find the right solution.

### CUSTOMER SERVICE

Our top priority is to provide the highest level of customer service.

Our team is dedicated to providing on time, on budget, on target solutions.

### SUBJECT MATTER EXPERTISE

We have subject matter experts who can help and assist every step of the way.

From initial request, to post-contract delivery, warranty, repair and anything else that might come up.

## WHO WE SERVE

- ✓ Military
- ✓ Federal, State and Local Agencies
- ✓ Corrections
- ✓ Public Safety
- ✓ Private Security

**WE CAN MEET EVEN THE MOST CHALLENGING MISSION REQUIREMENTS.**

# BUILT FOR — THE — MISSION®

MYSTERY RANCH builds the best load-bearing equipment in the world. We build for a different kind of customer, for folks who inspire us, and men and women with a job to do. We build with the best materials available and the most durable construction methods that exist so that you know our gear will support your mission whether it's on the front line, the fire line, the cleanest line or the steepest line.

We don't cut corners. Every pack that we build is designed with you in mind from function and fit to design and comfort. When every item that goes in your pack is a necessity, we want you to be efficient, effective, and most important, safe. We want to be sure that you can get it done, whatever your mission may be.

**MYSTERY RANCH® — BUILT FOR THE MISSION®**

# CERTIFICATIONS

---

**Berry Compliant**

All products in this catalog are in compliance with the Berry Amendment (10 U.S.C. 2533a).

# WARRANTY & REPAIRS

---

MYSTERY RANCH designs and manufactures packs for the job that needs to get done, supporting customers who rely on our packs to get home at the end of the day. Our Warranty guarantees everything we build against defects in materials and craftsmanship for the practical lifetime of the product. We will happily offer repair or replacement for issues with materials or craftsmanship.

Damage due to normal wear and tear or misuse can be repaired for a reasonable charge.

# PATENTS

---

Most MYSTERY RANCH products are covered by US and Foreign Patents, and other Patents Pending.

US Patents include:

US 6,626,342 B1; US 7,673,777 B2; US 8,381,956 B2; US 8,561,866 B2; US 8,950,644 B2; US 8,348,114 B2;

US 8,579,171 B2; US 9,173,473 B2; US 9,271,559 B2; US 8,162,194 B2 ; US 8,955,792 B2

# MATERIALS & TECHNOLOGY

---

## **CORDURA®**

### **500D and 1000D CORDURA®**

Built of custom spec'd 500D and 1000D CORDURA® with Teflon® and PU coatings for maximum durability, UV, and weather protection.

---

## **YKK®**

### **YKK® Zippers**

#8 and #10 zippers are used to provide long-haul durability.

### **IR Compliant Zippers**

Coyote, water-repellent YKK® zippers

---

## **FUTURAYOKE®**

### **Futura Yoke System**

The patented MYSTERY RANCH Futura Yoke system enables you to macro adjust the torso length and is a crucial piece of the structure of the pack.

---

## **BVS**

### **Bolstered Ventilation and Stability**

The BVS system increases stability of the pack over armor

# ASSAULT

---

This line of packs is designed to be the last word in assault packs. Engineered for quick access, comfort, and loaded with features, these packs are built for short and extended missions.

# ASAP

Coyote

Multicam

**Weight:** 1.4 kg (3 lbs)  
**Vol:** 20 L (1208 cu-in)  
**Size:**  S  M/L  XL

**Berry Compliant** 

For the shortest of missions, the ASAP is our smallest assault pack. Its 3-ZIP design allows quick access to the bag's interior and can easily carry a radio. Inside are multiple hydration configuration options.

# KOMODO DRAGON

Coyote

Multicam

**Weight:** 2.1 kg (4.7 lbs)  
**Vol:** 38 L (2288 cu-in)  
**Size:**  S  M/L  XL

**Berry Compliant** 

The KOMODO DRAGON is a slightly larger version of our 3 Day Assault for extended time in the field. PALS webbing on exterior accommodates MOLLE accessories and inside, it has a PALS webbing panel for radio mounts plus detail pockets and hydration sleeves. The 3 ZIP design provides easy access to sustenance gear, ammo, IFAKs and tactical radios. The waist belt stows away when not in use.

# 3 DAY ASSAULT

**Weight:** 2 kg (4.4 lbs)  
**Vol:** 33 L (2038 cu-in)  
**Size:**  S  M/L  XL  
**Berry Compliant** 

We've taken the classic design of the 3 DAY ASSAULT and streamlined the exterior by removing and updating features, making it the best pack for versatility and mobility. PALS webbing on exterior accommodates MOLLE accessories and inside, it has a PALS webbing panel for radio mounts plus detail pockets and hydration sleeves and the side compression straps minimize bulk. The 3 ZIP design provides easy access to sustenance gear, ammo, IFAKs and tactical radios.

# BLACKJACK 50

Coyote

Multicam

- Weight:** 3.3 kg (7.2 lbs)
- Vol:** 50 L (3051 cu-in)
- Size:**  S  M  L  XL  XXL
- Berry Compliant** 

The BLACKJACK 50 is designed after the new standard-issue packs for USSOCOM, the SPEAR ASSAULT. It features a lightweight, full carbon frame, Dyneema CORDURA® laminate, IR-compliant zippers, and lightweight bolsters. It is a 3051 cu-in, top-loading pack with two external pockets that each have internal, mesh pockets. The pack has full-length zippers on each side for fast access to the main compartment.

# SATL

Coyote

Multicam

**Weight:** 3.1 kg (6.8 lbs)

**Vol:** 56 L (3500 cu-in)

**Size:**  S  M  L  XL  XXL

**Berry Compliant** 

The standard-issue assault pack for SOCOM for over a decade. This pack features an internal harness compartment secures radio to the body panel to minimize shifting and a comfortable, Redirect waist belt for effective weight transfer.

# MOUNTAIN RUCK

Coyote

Multicam

**Weight:** 3.5 kg (7.8 lbs)

**Vol:** 86 L (5248 cu-in)

**Size:** S M L XL XXL

**Berry Compliant** 

The MOUNTAIN RUCK is our interpretation of the classic military ruck design. It combines the desirable shape of the original ALICE pack with the superior fit, quality and function of a MYSTERY RANCH product. The outside pockets keep gear separated and organized and the interior has PALS webbing on the back panel for attaching MOLLE accessories. The MOUNTAIN RUCK is compatible with our DAYPACK LID accessory.

# 6500

Coyote

Multicam

**Weight:** 4.5 kg (9.9 lbs)

**Vol:** 106 L (6500 cu-in)

**Size:**  S  M  L  XL  XXL

**Berry Compliant** 

A tactical expedition pack with room for everything for extended RECCE missions or bulkier items, the 6500 is our classic top loading tactical expedition pack. One of our most popular packs, this classic top-loading design features our Speedzip™ sleeping bag compartment on the bottom and a removable Day Pack lid. Based on the NICE Frame system, this pack can carry 70 pounds in comfort and will stabilize loads surpassing 100 pounds. A side zipper allows quick access to the internal contents of bag.

# BLACKJACK 50

Coyote

Multicam

**Weight:** 3.3 kg (7.2 lbs)

**Vol:** 50 L (3051 cu-in)

**Size:** S M L XL XXL

**Berry Compliant** 

The BLACKJACK 50 is designed after the new standard-issue packs for USSOCOM, the SPEAR ASSAULT. It features a lightweight, full carbon frame, Dyneema CORDURA® laminate, IR-compliant zippers, and lightweight bolsters. It is a 3051 cu-in, top-loading pack with two external pockets that each have internal, mesh pockets. The pack has full-length zippers on each side for fast access to the main compartment.

# BLACKJACK 80

VELCRO® on lid for identification and patches

Removable lid with zippered pockets has 2" straps that enable it to be used as a bolt/E&E waist pack or shoulder sling

Upper external zippered pocket with PALS webbing on the face has an interior detail pocket

PALS webbing on exterior and interior accommodates MOLLE accessories

IR-Compliant, water repellent YKK® zippers with toggles for easy use with gloved hands

Three external zippered pockets

Bottom and side compression straps

Autolock buckles prevent slippage

Top-loading shroud and two, full-length side zipper access to interior

Urethane coated zipper port at top of body panel opens from either side for antennae, cables, and/or hydration

Fully adjustable Futura yoke telescopes to fit any torso length

Internal sleeves and port integrate up to three hydration reservoirs

Military Light Frame consists of a matrix of carbon stays and shock-absorbing Dyneema CORDURA® laminate

BVS - Bolstered Ventilation and Stability system- allows for a stable, secure fit over body armor and can be easily removed

Side water bottle or rifle butt pockets with pass throughs for skis or other long items

Redirect waist belt system secures in a natural, forward pull direction that requires less effort to tighten

Coyote

Multicam

**Weight:** 3.8 kg 8.3 lbs)

**Vol:** 80 L (4880 cu-in)

**Size:** S M L XL XXL

**Berry Compliant**

The BLACKJACK 80 is designed after the new standard-issue packs for USSOCOM, the SPEAR PATROL. It features a lightweight, full carbon frame, Dyneema CORDURA® laminate, IR-compliant zippers, and lightweight bolsters. It is a 4880 cu-in, top-loading pack and features four external pockets with top-open zippers. The top lid is removable with straps that allow it to be used as a bolt/E&E pack. The pack has full-length zippers on each side for fast access to the main compartment.

# LOAD HAULING

---

Load Carriage™ is the cornerstone of our design philosophy; it's at the core of what makes MYSTERY RANCH packs different. We specialize in building packs that adapt to awkward and changeable loads. Optimizing the load is our specialty.

# Go Ahead, Bring More!

## OVERLOAD SYSTEM

The **OVERLOAD™** features patented **MYSTERY RANCH** technology that increases capacity. It provides functional expandability via a load sling between the pack and the frame, allowing you to put the bulk of the weight closest to your back for optimal comfort. This feature allows for securing sniper and crew-served weapons, Pelican cases, additional gear, or any other awkwardly shaped load between the frame and the bag without decreasing pack capacity for mission essentials or sustenance gear. The grippy, high-abrasion Hypalon fabric on the OVERLOAD™ stabilizes the load for secure, comfortable carry over long distances.

OVERLOAD with Pelican case

Coyote

Weapon compression straps

**Weight:** 3.5 kg (7.8 lbs)

**Vol:** 49 L (2990 cu-in)

**Size:**  S  M  L  XL  XXL

**Berry Compliant** 

The OVERLOAD™ pack features the quick-access, 3-ZIP design and the ability to secure sniper and crew-served weapons or Pelican cases between the pack and frame without decreasing capacity for mission essentials or sustainment gear. Built on the NICE Frame, which is a patented construction, that allows the frame to flex with your body resulting in top-down load transfer to comfortably carry heavy loads. The OVERLOAD™ feature makes this our most advanced weapon's carry backpack.

# LOAD SLING

Coyote

Multicam

**Weight:** 2.5 kg (5.5 lbs)

**Size:**  S  M  L  XL  XXL

**Berry Compliant** 

The LOAD SLING adds versatility and stability for non-standard loads. It is the most basic method to lash objects to the NICE Frame – a patented construction that allows the frame to flex with your body, resulting in top-down load transfer to comfortably carry heavy loads. This simple design has two adjustable straps to the top and each side. Its wide range of adjustability will conform to any load you can carry.

# CREWCAB

Coyote

Multicam

**Weight:** 3.4 kg (7.4 lbs)

**Vol:** 26 L (1592 cu-in)

**Size:**  S  M  L  XL  XXL

**Berry Compliant** 

The CREWCAB is our variable-capacity, do-anything military pack. It can be compressed into a low-profile, 1592 cu-in pack or expanded to carry Load Cells, EOD gear, Pelican cases, robots, ammo cans, and CASEVAC in a pinch.

# MEDICAL

---

On the front line in a medical emergency, every second counts. That's why the MYSTERY RANCH medic specific bags were designed around quick access, organization, and comfort.

# RATS

Coyote

RATS internal organization pockets and sleeves

Multicam

**Weight:** 3 kg (6.6 lbs)  
**Vol:** 23 L (1400 cu-in)  
**Size:**  S  M/L  XL  
**Berry Compliant** 

The Rapid Access Trauma System (RATS) pack is a frontline medic bag whose every detail is focused on quick, one-handed access to organized medical supplies. There are multiple trauma shears and tourniquet holders throughout and large reinforced handles for hanging the pack on branches or inside of helicopters. It's sized so that when mounted on the NICE Frame, there is room below the pack for carrying litters or hydraulic combi tools. Inside the RATS are four removable pockets with clear vinyl windows and two IV bag pockets. The RATS also features removable BVS that optimizes the pack for use with or without body armor.

# NICE RATS

Coyote

- Internal top handle for hanging opened pack
- Two internal sleeves for splints and long items
- Four removable internal pockets and two 1000 ml IV bags
- Internal trash pocket to keep track of items used

RATS internal organization pockets and sleeves

Multicam

**Weight:** 4.4 kg (9.8 lbs)

**Vol:** 23 L (1400 cu-in)

**Size:**  S  M  L  XL  XXL

**Berry Compliant** 

The NICE RATS (Rapid Access Trauma System) pack is a frontline medic bag whose every detail is focused on quick, one-handed access to organized medical supplies. There are multiple trauma shears and tourniquet holders throughout and large reinforced handles for hanging the pack on branches or inside of helicopters. The NICE RATS is built on the NICE Frame which adds additional capacity for carrying litters or combi tools. Inside the main compartment are four removable pockets with clear vinyl windows and two IV bag pockets.

# ROUS

Coyote

ROUS internal organization pockets and sleeves

Multicam

**Weight:** 5 kg (11 lbs)

**Vol:** 56 L (3500 cu-in)

**Size:** S M L XL XXL

**Berry Compliant**

Oversized medic pack for ultimate preparedness – the ROUS features quick access to your organized medical supplies. The large top lid has elastic loops for gauze and a detail pocket for administrative needs. The front panel has one large pocket and two Rip Zip pockets for more storage. Inside the main compartment are six removable pockets and two IV bag pockets, all with clear panels for fast identification.

# MOLE

Coyote

Also Available in Multicam and Black

NEW

**Weight:** 2.2 kg (4.9 lbs)

**Vol:** 22 L (1342 cu-in)

**Size:**  S  M  L  XL  XXL

**Berry Compliant** 

The MOLE is our smallest med pack. Its comfortable shoulder straps are removable for easy body armor attachment via the body armor mount system. The MOLE was designed to allow quick access to all of your medical equipment. The main compartment splays open, allowing full access to the removable pockets so that you can work out of the pack. Every square inch of this pack was designed with function in mind. It includes our Removable Stick-it for bulky items or a helmet.

# JUMP

---

Designed for the sharpest tip of the spear, MYSTERY RANCH Jump Packs are genuinely mission focused. Every construction method and detail focuses on quick rigging, safe flight, and fast movement off the X.

## COMMON FEATURES

---

- Tex 135 thread sewn in a 4" double-W box stitch for reinforcement and break strength and Jump-rated Type 7 webbing with a resin coating to help guard against abrasion
- Double-layered, 1000D CORDURA® at all connection point panels for durability
- Integrated connection points replace the need for an H-Harness
- Integrated lowering line connection point
- Toggles and D rings lock the zipper sliders and prevent unintended opening
- Nibs for retaining bands

# JUMP RATS

Multicam

- Tex 135 thread sewn in a 4" double-W box stitch for reinforcement and break strength and Jump-rated Type 7 webbing with a resin coating to help guard against abrasion
- Double-layered, 1000D CORDURA® at all connection point panels for durability
  - Integrated connection points replace the need for an H-Harness
  - Integrated lowering line connection point
- Toggles and D rings lock the zipper sliders and prevent unintended opening
  - Nibs for retaining bands

**Weight:** 3.2 kg (7 lbs)  
**Vol:** 23 L (1400 cu-in)  
**Size:** S M L XL XXL  
**Berry Compliant**

Developed several years ago working closely with the MFF community, the smallest of the MYSTERY RANCH Jump Pack line is the JUMP RATS, a rapid-access trauma bag whose every detail is focused on quick, one-handed access to organized medical supplies. There are multiple trauma shears and tourniquet holders throughout and large reinforced handles for hanging the pack on branches or inside of helicopters. Inside the JUMP RATS are four removable pockets with clear vinyl windows and two IV bag pockets. MYSTERY RANCH has always focused on making packs that carry well first and foremost, then balance between lightweight and durability relative to the end users' needs. The Jump Packs are constructed so they carry weight just like their non-jump counterparts, with only a 4 oz weight penalty.

# JUMP KOMODO

Multicam

- Tex 135 thread sewn in a 4" double-W box stitch for reinforcement and break strength and Jump-rated Type 7 webbing with a resin coating to help guard against abrasion

  - Integrated connection points replace the need for an H-Harness
  - Integrated lowering line connection point
- Toggles and D rings lock the zipper sliders and prevent unintended opening
- Nibs for retaining bands

**Weight:** 2.3 kg (5.1 lbs)

**Vol:** 38 L (2288 cu-in)

**Size:** S M L XL XXL

**Berry Compliant**

The MYSTERY RANCH Jump Pack line was developed several years ago working closely with the MFF community. The JUMP KOMODO is built for extended time in the field. PALS webbing on exterior accommodates MOLLE accessories and inside, it has a PALS webbing panel for radio mounts plus detail pockets and hydration sleeves. The waist belt stows away when not in use. MYSTERY RANCH has always focused on making packs that carry well first and foremost, then balance between lightweight and durability relative to the end users' needs. The Jump Packs are constructed so they carry weight just like their non-jump counterparts, with only a 4 oz weight penalty.

# JUMP OVERLOAD

- Tex 135 thread sewn in a 4" double-W box stitch for reinforcement and break strength and Jump-rated Type 7 webbing with a resin coating to help guard against abrasion
- Double-layered, 1000D CORDURA® at all connection point panels for durability
  - Integrated connection points replace the need for an H-Harness
  - Integrated lowering line connection point
- Toggles and D rings lock the zipper sliders and prevent unintended opening
  - Nibs for retaining bands

**Weight:** 3.8 kg (8.4 lbs)

**Vol:** 49 L (2990 cu-in)

**Size:** S M L XL XXL

**Berry Compliant** 

The MYSTERY RANCH Jump Pack line was developed several years ago working closely with the MFF community. The JUMP OVERLOAD our most advanced weapons carry backpack made jumpable and based on the NICE Frame. This pack is unique for its ability to change from Patrol pack to weapons carry to load hauler. In default configuration, it is a fast access, 2,990 cu-in Patrol pack. When missions change, it securely transports sniper and crew-served weapons or Pelican cases between the pack and frame without decreasing capacity for mission essentials or sustainment gear. When it's time for resupply or you have to haul large, awkward items, simply expand the cargo shelf and you have massive load-carrying capability. MYSTERY RANCH has always focused on making packs that carry well first and foremost, then balance between lightweight and durability relative to the end users' needs. The Jump Packs are constructed so they carry weight just like their non-jump counterparts, with only a 4 oz weight penalty.

# JUMP MOUNTAIN RUCK

Multicam

- Tex 135 thread sewn in a 4" double-W box stitch for reinforcement and break strength and Jump-rated Type 7 webbing with a resin coating to help guard against abrasion
- Double-layered, 1000D CORDURA® at all connection point panels for durability
  - Integrated connection points replace the need for an H-Harness
  - Integrated lowering line connection point
- Toggles and D rings lock the zipper sliders and prevent unintended opening
  - Nibs for retaining bands

**Weight:** 3.7 kg (8.2 lbs)

**Vol:** 86 L (5248 cu-in)

**Size:** S M L XL XXL

**Berry Compliant**

The MYSTERY RANCH Jump Pack line was developed several years ago working closely with the MFF community and the JUMP MOUNTAIN RUCK is the largest in our line-up of Jump Packs. This pack is our interpretation of the classic military ALICE pack design made jumpable. It combines the desirable shape of the original with the superior fit, quality and function of a MYSTERY RANCH product. The outside pockets keep gear separated and organized and the interior has PALS webbing on the back panel for attaching MOLLE accessories. MYSTERY RANCH has always focused on making packs that carry well first and foremost, then balance between lightweight and durability relative to the end users' needs. The Jump Packs are constructed so they carry weight just like their non-jump counterparts, with only a 4 oz weight penalty.

# ACCESSORIES

MYSTERY RANCH accessories were designed to help customize your pack whether quick access to essentials, extra volume, additional organization, or hydration solutions.

**Color:** Coyote | Multicam

## MYSTERY CINCH

**Weight:** 0.1 kg (0.3 lb)  
**Color:** Coyote | Multicam | Black

# O.E.M

---

One of the things we are thankful for at The Ranch is the interesting problems our customers bring to us. That includes packaging weapons, comm gear, optics, sensors, connectors, and cabling. We have designed built-in systems to carry jammers, receivers, and robots. If it needs to be carried by a human - let's talk.

## FRAMES

---

### **NICE Frame**

A rigid yet dynamic frame system that moves with you. The NICE frame consists of three vertical and three horizontal carbon fiber stays and a full fabric panel between the stays that absorbs shock and increases the flexibility of the frame. This patented construction allows the frame to flex with your body, resulting in top-down load transfer to comfortably carry heavy loads. This frame system incorporates our patented Futura Yoke system which enables you to micro adjust the torso length and is a crucial piece of the structure of the pack.

### **Internal Frame**

The Internal Frame consists of composite stays and an HDPE (high-density polyethylene) sheet that provides rigidity yet is flexible. This frame system incorporates our patented Futura Yoke system which enables you to micro adjust the torso length and is a crucial piece of the structure of the pack.

### **Frame Sheet**

The HDPE (high-density polyethylene) sheet provides rigidity yet is flexible. This frame system incorporates our patented Futura Yoke system which enables you to micro adjust the torso length and is a crucial piece of the structure of the pack.

### **Military Light Frame**

The MLF consists of four vertical and three horizontal carbon fiber stays and a reduced fabric panel using stiffer, more structured CORDURA® Dyneema laminate at the points of connection resulting in shock absorption and increase in the flexibility of the frame. This frame system incorporates our patented Futura Yoke system which enables you to micro adjust the torso length and is a crucial piece of the structure of the pack.
