XION PROTECTIVE GEAR

XION® Protective Gear produces a variety of under garments for the PPE market. Their Personal Protective Equipment can be **worn comfortably underneath any uniform**. The base layer protects against blunt trauma impact. Xion gear is powered with and protected by the ground breaking and revolutionary impact protection technology from D3O®.

DISCRETE PROTECTION THAT FITS UNDER ANY UNIFORM.

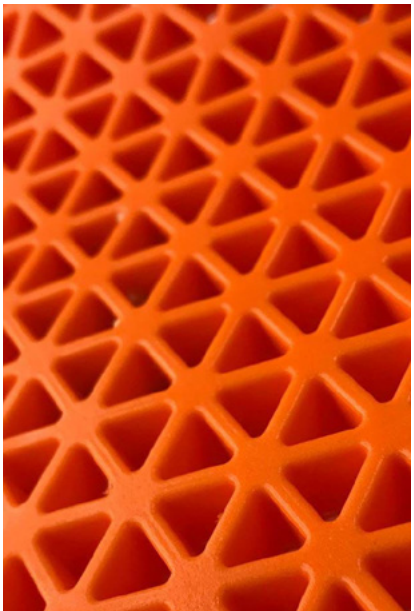
CRC COLLECTION

CRC JACKET

CRC PANT

The CRC Collection is specifically designed for **CROWD RIOT CONTROL** purposes, offering maximum protection to key areas of the body without compromising on freedom of movement. The jacket's main fabric is a perforated 4-way stretch jersey to allow maximum breathability while being comfortable to wear as a skin-tight garment under any workwear or uniform.

XION'S LOW-PROFILE SILHOUETTE OFFERS FULL PROTECTION WHILE CREATING A LESS AGGRESSIVE PRESENTATION IN CROWD CONTROL SITUATIONS.



PROTECTED BY D3O's GROUND BREAKING IMPACT TECHNOLOGY

FR COLLECTION

FR JACKET

FR PANT

FIRE RESISTANT collection of impact protective under garments with the same protective benefits of it's CRC counterpart.

NVD
NIGHT VISION DEVICES

Night Vision Devices, a U.S. Veteran Owned Business, is the source for the highest quality US manufactured night vision binoculars, monoculars, weapon sights, night vision parts and service in the industry.

BUILT TO FULL MIL SPEC QUALIFICATIONS

INDUSTRY LEADING TECHNOLOGY SINCE 2005

BNVD
SINGLE GAIN

The NVD-BNVD-SG Binocular is a dual tube goggle with gain control. The BNVD-SG operates with a single gain control knob that controls both eyepieces simultaneously. Depending upon the amount of ambient light, the user can adjust the tube brightness (gain) lower to compensate for overly bright conditions or to increase the gain under extreme dark conditions.

BNVD
ULTRA LIGHT - SINGLE GAIN

At only 475 Grams, the UL BNVD-SG, ultra light dual tube goggle with Single Gain Control incorporates new high performance optics that are not only much lighter, but also offer higher performance than standard optics. Currently the AN/PVS-14 and most other night vision systems, use optics which were only designed for green (P43) phosphor image tubes. However these new BNVD optics were designed specifically to be optimized for both White (P45) and Green (P43) image tubess.

PVS-14
MONOCULAR

The PVS-14 is the all around best multi functional night vision monocular available. Head or helmet mounted, the PVS-14 allows the user to retain their night adapted vision in one eye while viewing their surroundings through the illuminated eyepiece of the PVS-14 The new battery housing completes the perfect package by allowing the user to power off the unit when in an upright position and power on when flipped down.

VENTUS RESPIRATORY

Ventus Tactical is a research and design team dedicated to giving military and law enforcement the best respirators. Their core mission is to ensure you can protect yourself without compromising performance. They work with Tier 1 elite operators and subject matter experts to execute this mission.

VERY BREATHABLE EVEN DURING STRENUOUS ACTIVITY

TR2 - TACTICAL RESPERATOR II

- Low profile minimizes cheek-weld interference
- Breathable during strenuous activity
- Multiple strap options for varying kit setups
- Accessory port for mic integration
- Medical-grade silicone ensures tight face seal
- Downward facing exhaust valves minimize eyewear fog

BUILT FOR OPERATORS

- **FIRING RANGE:** Aerosolized Lead
- **BREACH TRAINING:** Mold/Explosives Dust
- **PATROL & TRANSPORT:** Environmental Pollution/Road Dust/Exhaust Particle

SOFT-TOUCH MEDICAL-GRADE SILICONE

FILTER CARTRIDGES

- More than 97% effective at 0.3 microns
- Filter material analysis achieved 97% efficiency according to testing standard NaCl 32 LPM TSI8130
- Filter housing is made from biodegradable plastic known to pass ASTM D6400
- Simple filter replacement

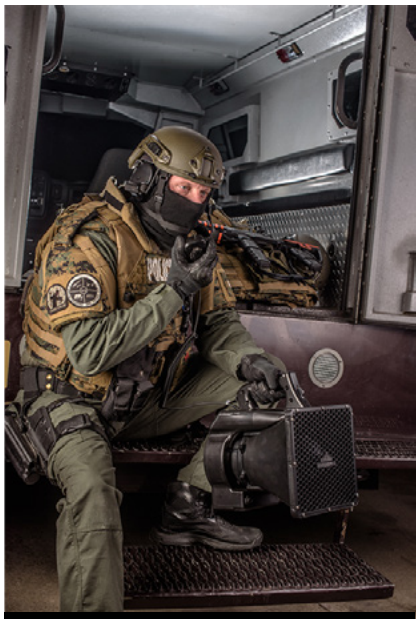
HYPERSPIKE

HyperSpike products bring revolutionary sound quality and intelligibility to the industry. Hyperspike's innovative designs exceed the highest standards in military and mass notification markets. Proven, battle-tested technology that enhance military and security personnel's response and communication capabilities.



BUILT-IN HIGH FREQUENCY ALERT TONE

HS-10

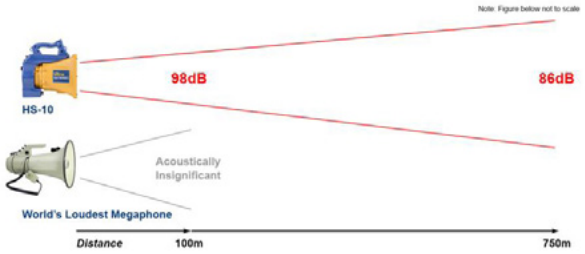
FOCUSED, POWERFUL HAILING DEVICE

With its unique and proprietary HyperSpike technology, the NEW HS-10, next generation of the HS-Micro, is a self contained, portable acoustic hailing device that comes in two models. Weighing only 15 lbs, the HS-10R packs a peak acoustic output of 144dB for a communication range of 750+m. Easily accessible, the built-in high frequency alert tone is readily activated with the push of a button.

The HS-10 easily penetrates high background noise environments to ensure that unmistakable commands and piercing alert tones are heard. Exceeding traditional megaphones and common hailing devices, the HS-10 brings clear and intelligible commands and authoritative messages to the intended target.

This focused beam is used to transmit selected wildlife distress calls, critical communications, security commands, predator calls or alert tones that can be clearly understood out to 1/4 of a mile.

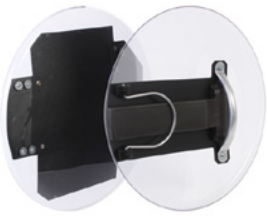
LONG RANGE: 750+M



Scorpion
PERSONAL PROTECTIVE EQUIPMENT

The Scorpion Range of Personal Shields are designed to offer a high degree of protection and an ease of deployment that greatly increases its effectiveness with features such as ergonomic handles and a stacking capability for storage that ensure a perfect fit for the modern agency.

QUALITY ASSURED
EXCLUSIVE MOULDING TECHNIQUE



SOLO SHIELDS
Clear polycarbonate round shields with a handle system which allows the shield to be carried and deployed on the forearm leaving one hand free for other equipment

INTERLOCKING SHIELDS
A specially designed friction linkage system joins the shields together to form a continuous barrier, whilst still allowing easy, straight forward operation. Available in a range of lengths and handle configurations.

LONG SHIELDS
65" x 24" clear polycarbonate shield. Wraparound design protects the lower legs against side impacts and multiple shields can be linked to from a barrier.

MANUFACTURED BY
DMS PROTECTIVE EQUIPMENT

BLUNT TRAUMA PROTECTION

With a modular design and multiple sizes to fit male and female officers, Scorpion PPE offers the best protection for high-risk operations. Each piece is ergonomically designed with real-life movement in mind: adjustable straps ensure a better, more stable fit and flexible molded joint areas help maximise officers' mobility.

internalenergy
THERMAL TARGETS

Internal Energy is a Canadian manufacturer of re-usable thermal targets for use by military, police, and law enforcement training programs. Internal Energy's proprietary and state-of-the-art X-Heat Technology allows their front mounted (shoot-through) thermal targets to feature a multi-hit capability, all while representing real-life heat signatures in a wide range of operating environments and ambient temperatures.

By using safe, low voltage power options (12 and 24 VDC) end users are no longer bound by range or shoot house setup or constraints and can power the targets with any 12 or 24V power arrangement.
