WE EQUIP YOUR MISSION

CAPABILITIES OVERVIEW

THE WORLD'S BEST OPERATIONAL EQUIPMENT. INDUSTRY LEADING CUSTOMER SERVICE.

THE WORLD'S BEST OPERATIONAL EQUIPMENT. INDUSTRY LEADING CUSTOMER SERVICE.

Rampart is a provider of operational equipment to Police, Military and Armed Government Agencies. We offer access to a large selection of products and brands, world-class subject matter experts, and industry-leading customer service. Since our founding in 2010, Rampart has helped hundreds of agencies source and acquire operational equipment that can meet even the most challenging requirements.

Now, in our fourteenth year, we have built a customer base of hundreds of agencies and forged strong relationships with leading equipment manufacturers from around the world.

Rampart is an industry leading single source provider of operational equipment. We offer access to a selection of premiere brands and products, world-class subject matter experts, and industry leading customer service.

EQUIPMENT SOLUTIONS

Our experts are committed to serving the end-user with the world's best products. If you're unsure of what you need, our experts work with you to find the right solution.

CUSTOMER SERVICE

Our top priority is to provide the highest level of customer service. Our team is dedicated to providing on time, on budget and on target solutions.

SUBJECT MATTER EXPERTS

We have subject matter experts who can help and assist every step of the way. From initial request, to post-contract delivery, warranty, repair and anything else that might come up.

WARQ PRO helmets have been designed specifically for use in scenario-based training with marking rounds and FoF ammunition.

PG 3

DEFILADE base layer body protection protects against blunt trauma impact and can be worn comfortably underneath any uniform or other work wear.

PG 4

A worldwide leader in head protection, Schuberth manufactures lightweight, fire resistant, impact-absorbing public order helmets.

PG 6

Hyperspike manufactures high powered focused acoustic hailing products for law enforcement, military and corrections.

PG 8

DFNDR Armor equips law enforcement professionals with advanced, reliable body armor for critical protection in the field.

PG 9

Purafy is a clean technology company that provides advanced, market-leading solutions to the world's water challenges.

PG 10

The CEW Testing Chamber allows users to conduct daily CEW function tests, scheduled downloads or test malfunctioning cartridges safely and effectively.

PG 11

The WARQ Pro training helmet was designed specifically for Law Enforcement and Military use in training with marking rounds and FoF ammunition. Its unique ventilation system provides the best anti-fog capabilities on the market.

MADE IN EUROPE

WARQ PRO TRAINING HELMET

- Protects against all major brands of training/marketing ammunition
- Developed specifically for Law Enforcement & Military
- EN166A & ASTM F1776 Certified

ANTI-FOG

- Unique ventilation system expels hot air and body heat exhaust before it fogs up the lens
- Anti-Fog means there is no need to remove the helmet for fog relief, leading to safer, more realistic training

EXTRA-WIDE FIELD OF VIEW

- 210° lens, improved non-verbal awareness
- Unmatched situational awareness

ONE-SIZE FITS ALL

- Adjustable, will fit all team members
- Unmatched situational awareness

NECK GUARD INCLUDED
WITH EVERY HELMET

USED BY LAW ENFORCEMENT & MILITARY UNITS WORLDWIDE

DEFILADE
PROTECTION SYSTEMS

DEFILADE's Discreet Deployment System (DDS) marks a new era in personal protective equipment for Law Enforcement. The DDS uses D30® padding for exceptional blunt impact protection, in a light weight, breathable base layer that can seamlessly fit under your uniform.

FULL IMPACT PROTECTION WITHOUT AGGRESSIVE PRESENTATION

LOW-PROFILE PROTECTION
FOR LAW ENFORCEMENT

FEATURES

LOW PROFILE

FULL FREEDOM OF MOVEMENT

MOISTURE WICKING

REMOVABLE PADS

PROTECTED BY D30®

FR MODELS AVAILABLE

D30®

PROTECTED BY D30'S GROUND BREAKING IMPACT TECHNOLOGY

**MODERN POLICING.
MODERN PROTECTION.**

Impact protection without escalation. The Discreet Deployment System's ability to fit underneath the uniform results in officers having a low-profile silhouette. This gives users full blunt impact protection while creating a less aggressive presentation in crowd control situations.

THE PROTECTION TO SERVE.

DEFILADE DDS is protected by D30®'s ground-breaking impact technology. D30® produces the thinnest, most advanced protection against impact and blunt force trauma. Built with law enforcement in mind, its low-profile design & unmatched technology is a perfect solution for the challenges facing modern policing.

DEFILADE
PROTECTION SYSTEMS

RIOT SHIELDS

Built with impact protective, flame resistant polycarbonate. DEFILADE's shields are lightweight, easy to maneuver and tailored to your operational needs.

STAY AGILE AND RESPOND TO RAPIDLY EVOLVING SITUATIONS

ROUND SHIELD

MOBILITY & AGILITY

Designed for quick intervention tactics, allows ability to move throughout a crowd

QUICK RESPONSE

Its design enables prompt response to sudden crowd shifts or specific threats

ONE-HAND OPERATION

Allows officers to use other equipment or tools simultaneously

FLAME RESISTANT

Tested in compliance with:
ASTM D1929-20 Standard

PUNCTURE RESISTANT

Tested in compliance with:
ASTM D3763-18 Standard

IMPACT PROTECTION

Tested in compliance with:
BS 7971-3 2002 Standard

6FT INTERLOCKING = MAXIMUM PROTECTION IN DEFENSIVE LINES

INTERLOCKING SHIELD

Available in 4' and 6' lengths

VERSATILE DESIGN

Offers versatility for barrier formation or crowd navigation as needed

BARRIER FORMATION

Ideal for stand-offs, creates a strong barrier for crowd control and containment

HAND THROWN PROJECTILE DEFENSE

Built to withstand impacts from various crowd-thrown objects

Schuberth is a world market leader when it comes to head protection systems including motorcycle, formula 1, military, police, work safety and firefighting with a yearly output of over one million helmets.

P100N

PUBLIC ORDER HELMET

A lightweight, fire and chemical resistant helmet with optimum impact-absorbing properties. Its modular design allows for easy customization depending on operational need.

The P100N helmet from Schuberth combines multiple layers of aramid composite with an EPS foam backing. When the helmet is attacked, the exterior aramid fiber layers delaminate (or separate), dissipating some of the force before it reaches the interior EPS foam. The process of delamination also means that any damage to the helmet is localized and ensures that the protective ability of the helmet will not be compromised after a single impact.

M100

BALLISTIC HELMET

A modern combat helmet, excels in both comfort and ballistic defense. Its innovative open architecture rail system and customizable interior deliver exceptional battlefield performance.

The M100 offers high ballistic protection, certified to meet or exceed NIJ Level 3A standards, ensuring robust defense against a wide range of ballistic threats in combat situations. An adjustable interior, provides a customized fit for each wearer and ensures both comfort and stability during prolonged dynamic activities. The M100's open architecture rail system enhances its adaptability, allowing for the attachment of various mission-critical accessories. The helmet's meticulous design places a premium on wearer comfort, reducing fatigue and optimizing focus and performance during missions.

P100N

A multi-layered, lightweight, chemical and flame resistant riot control helmet.

Standard visor

Non-adjustable

Highest level of head protection

Standard anti-fog visor

Lowest cost option

No laser protection

P100N - PIN LOCK

HYPERSPIKE

HyperSpike products bring revolutionary sound quality and intelligibility to the industry. HyperSpike's innovative designs exceed the highest standards in military and mass notification markets. Proven, battle-tested technology that enhance military and security personnel's response and communication capabilities.

HS-10

The HyperSpike HS-10 is a self-contained portable acoustic hailing device (AHD). Weighing only 15 lbs, the HS-10 packs a peak acoustic output of 144dB for a communication range of 750+m.

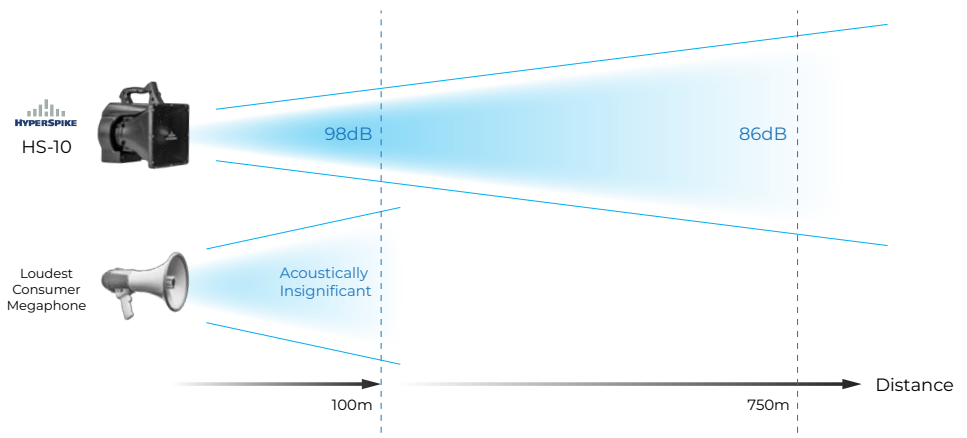

The HS-10 is a powerful and versatile tool for law enforcement, military, and correctional facilities that need to communicate, control crowds, and deter potential threats in a non-lethal manner.

INDUSTRIES:

- ✓ Law Enforcement
- ✓ Military
- ✓ Corrections

The HS-10 easily penetrates high background noise environments to ensure that unmistakable commands and alert tones are heard. Exceeding traditional bullhorns / megaphones and common hailing devices, the HS-10 delivers clear and intelligible commands and authoritative messages in exceptional clarity.

DFNDR

DFNDR Armor is committed to providing state-of-the-art personal protection solutions through continuous innovation and dedication to quality. Their mission focuses on providing state-of-the-art body armor that ensures the highest level of safety and tactical superiority for those who protect and serve.

LEVEL III+ RIFLE RATED

The DFNDR Armor® Rifle Rated Level III+ system is their flagship lightest weight areal density body armor insert. This armor is specifically designed to defeat the Mild Steel Core Chinese and PS Ball Russian 7.62x39 AK-47 threats. This system also defeats standard lead core .308, 7.62, .223 and 5.56 threats at a drastically low weight of 2.5 lb. for a Medium Size plate.

M193 ICW ELITE SERIES ULTRA LIGHTWEIGHT RIFLE RATED

The DFNDR Armor® M193 In-Conjunction-With (ICW) Elite Ultra Lightweight system is an incredibly thin lightweight body armor insert designed to defeat 5.56x45mm M193 Ball and 7.62x39mm Ball. Their M193 ICW rifle rated hard armor plates are designed with a multi-curve profile to provide an ergonomic and comfortable fitting armor system that is intended to be worn in front of IIIA soft armor.

DFNDR LPC LOW PROFILE CARRIER

The DFNDR LPC (Low Profile Carrier) system was designed to be used in a variety of applications. It can be worn covertly under clothing such as a sweatshirt or jacket but is fully modular and can be built-out to attach placards, comms, EUD's or their Enhanced Elastic Cummerbund for maximum load carriage.

Purafy is a clean technology company that provides advanced, market-leading solutions to the world's water challenges.

**DURABLE, RAPID WATER
FILTRATION**

PORTAGE

PORTABLE DRINKING WATER
FILTRATION SYSTEM

The PORTAGE is a powerful and compact filtration system that uses a combination of graphene, advanced ultrafiltration (AUF) membranes, conventional water filters and a built-in pump to create clean, high-quality drinking water at flow rates exceeding 300L per hour.

FEATURES

- Delivers high-quality drinking water from almost any water source
- Portable, easy to transport & setup, and can be monitored digitally
- Drinking water flow averages over 300L per hour (1800 gallons per day)

SPECIFICATIONS

- **Weight (wet):** 93 kg (205 lbs)
- **Dimensions:** 78 cm x 66.1 cm x 38.1 cm (31" x 26" x 15")
- **Water Flow Rate:** Max. 400L / hour (1.8 GPM) Min. 120L / hour (0.5 GPM)
- **Power (720W):** 120V AC / 240V AC / 24V DC

FILTRATION

- **Algae:** 99.9999999%
- **Parasites:** 99.9999999%
- **Cysts:** 99.9999999%
- **Bacteria:** 99.9999999%
- **Viruses:** 99.99%

PORTAGE-DS

SALT WATER DESALINATION

When seawater salt levels are present, the operator can configure Portage-DS for desalination. High surface area RO membranes and powerful pumps will produce up to 5,000L per day.

**MONITOR FILTRATION
ON MOBILE DEVICE**

The CEW Testing Chamber was carefully designed for the safety of the user while providing an indispensable and functional testing method.

CONTAINED ACCIDENTAL
DISCHARGES

CEW TESTING CHAMBER

GEN 3

The Rampart CEW Testing Chamber allows CEW users to conduct daily function tests, scheduled downloads or test malfunctioning cartridges safely and effectively.

KEY FEATURES:

- Probes from accidental discharges are captured and contained within the testing chamber
- The chamber decreases decibel output by over 50%, reducing disruptions to other staff during scheduled downloads
- The operator can visually see the arcing during testing without needing to look directly at the CEW, protecting the user

WHAT'S NEW IN THE THIRD GENERATION?

- Top access to remove mirror for easy cleaning
- New lightweight material in high-visibility yellow
- Floor stand available when mounting is not an option

PHYSICAL SPECS:

- 7.72lbs | 17" x 12" x 9" (H x W x D)

FLOOR STAND
