

## HOW TO MEASURE

Using a fabric measuring tape, measure the length and width of your dominant hand as seen in the reference images below. **NOTE: Do not measure over a glove.**

### LENGTH

With your fingers spread, measure from the tip of your middle finger to the base of your hand where the wrist begins.

### WIDTH

Wrap a measuring tape around your dominant hand at its widest point (across the palm and over the back of the hand). Ensure the tape is snug but not tight.

**Take the largest of the two measurements and round up.**

**Example: If the hand width is 5.5 in, and the hand length is 6.75 in, choose 6.7 in and round up to 7. This would give you a glove size of 7. (XS)**

| UNISEX SIZING | XS      | S       | M       | L        | XL        | XXL       |
|---------------|---------|---------|---------|----------|-----------|-----------|
| INCHES        | 6.5-7.5 | 7.5-8.5 | 8.5-9.5 | 9.5-10.5 | 10.5-11.5 | 11.5-12.5 |
| CENTIMETERS   | 18      | 20      | 23      | 25       | 28        | 30        |
